

Steel-Line's

# DECOWOOD<sup>®</sup> DOORS

*The look and feel of timber with the strength  
of Australian BlueScope<sup>®</sup> Steel - exclusive to Steel-Line.*

Bold, beautiful and truly inspiring, Steel-Line's innovative range of DecoWood<sup>®</sup> sectional doors combines the look and feel of genuine timber with the strength and security of steel. The result is a range of sectional doors which gives your home the stylish look of timber doors without the price tag and extensive maintenance requirement. There are plenty of imitators on the market, but only a DecoWood<sup>®</sup> sectional door looks authentic, even up close.

Steel-Line's

# DECOWOOD® DOORS

The look and feel of timber with the strength of Australian BlueScope® Steel - exclusive to Steel-Line.

## It really does look like timber.

It's hard to imagine a timber finish like this could be anything but the real thing. That's because we use a unique manufacturing process to create an incredibly natural three-dimensional timber finish on high quality steel. Unlike timber, DecoWood® doors won't warp, shrink, splinter or rot. They require little maintenance\*, and unlike the trees that were saved to create your DecoWood® sectional door, they are also completely impervious to termites.

## The strength of Australian steel.

Made from only the best quality Australian products such as BlueScope® Steel, our DecoWood® sectional doors offer all the security and peace of mind that you have come to expect from Steel-Line garage doors. Proudly manufactured right here in Australia, DecoWood® sectional doors are built tough enough to endure the extremes of Australia's harsh weather conditions.

## Nine great colours at an affordable price.

DecoWood® doors are available in a choice of nine true Australian timber hues which are applied using powder coating and special polymers in a process exclusive to Steel-Line. Designed with value for money and quality in mind, our DecoWood® door is the solution that gives home owners the timber look at almost half the cost of an actual timber door.

*Nine great hues to choose from:*

Ironbark

Western Red Cedar Casuarina

Snowgum

Rose Mahogany

Bush Cherry

Jarrah

Chestnut

Kwila

Please note: The colours shown are a guide only. The limitations of printing processes make extremely accurate matches impossible. We strongly recommend comparing your choice with actual samples. As the DecoWood® finishes are designed to look like timber, variations in colour may be evident. Additionally, Steel-Line reserves the right to vary or delete colours without notice.

\*In non-corrosive environments, only an occasional wash down with warm soapy water and rinse is required. In corrosive environments such as near the ocean, all steel garage doors require more frequent and robust maintenance.
