accessories

Emergency key release

Used in case of malfunction or power failure, especially useful if there is no other access to the garage.
* This product not compatable with RD9.

Electronic key switch

Allows entry into your garage from outside, via a key lock. Useful when remote handset is not available.

'Photo Eye' technology

Causes the garage door to automatically reverse when its sensory light beam is broken by an obstruction, helping to protect your family from injury and your car from the damage caused by contact.

Wireless keypad

Weatherproof digital keypad with cover which can be programmed with codes from 1 to 6 digits, for maximum security. Includes back-light for your convenience when used in poor lighting situations.

Remote handset

Comes with two buttons which act as multi-functional hand transmitters. It can also be programmed to open different garage doors or gates on the one-handset.

For the ultimate in convenience and functionality, Boss Garage Door Operators offer a range of optional accessories to complement standard operator installations.

- "Automatic Close Function" (when the "Photo Eye" system is fitted)
- "Overload Adjustment" included
- Optional "Photo Eye" protection
- Manual limit
- Courtesy light included
- Manual disengagement chord
- 5 year motor warranty, 2 year electronics warranty

SECTIONAL GARAGE DOORS

Sectional Garage Door Operator 24V DC

This powerful DC operator is one of the smoothest, quietest and most reliable garage door operators. With the added benefits of the "C" rail system that encloses moving parts, it ensures a safer and cleaner looking rail system. This motor is ideal for shift workers or those who come home in the middle of the night - so no more waking up the whole household.

- B/OL6 Model (chain drive or belt drive)
- 24V DC motor type
- 15m² maximum garage door size
- 1.2 million transmitter code combinations
- 303MHZ transmitter frequency
- 1000N of force
- Minimum head room of 50mm
- "Automatic Close Function" (when the "Photo Eye" system is fitted)
- Wireless wall button
- "Overload Adjustment" included
- Optional "Photo Eye" protection
- Courtesy light included
- Manual disengagement chord
- Soft start / soft stop function
- 5 year motor warranty, 2 year electronics warranty

standard features

All Boss operators have been engineered to the highest standard to ensure optimum performance, which is why each installation comes with the following standard features.

Remote handset

These remotes are the most effective way to open and close your garage door. They are lightweight and can be programmed with up to 1.2 million transmitter code combinations.

Courtesy light

This courtesy light is the most convenient way to navigate through your garage and to get in and out of your car. The light automatically switches on and off as you open and close your door.

Quality and adaptability

Boss garage door operators are manufactured from quality composite materials, and are approved to the latest world-wide standards. They can also be fitted to most popular brands of roller doors, sectional overhead doors and tilt doors with accessories to suit your requirements.

Garage door stop programming

This convenient feature allows for the door to be stopped at any height for the purpose of ventilation or pet access.

Auto reverse system

For added safety, each installation comes with this automated feature that causes the garage door to immediately stop and reverse when it comes into contact with an object.

In-built safety timer

This automatic close timer (when the "Photo Eye" system is fitted) will ensure that your door will close automatically (after a pre-programmed time) if you forget to close it yourself. This is a fantastic security feature that will ensure that you have peace of mind.

convenient and reliable

Easy to install and service

Experienced Steel-Line Garage Doors service technicians provide repairs and replacement parts for your new or existing garage door, motor or remote.

Approved to world-wide standards and covered by a 5 year motor warranty
