Designed to be tough and durable.

Steel-Line's range of rolling doors is the benchmark for style and quality in Australian garage doors. The following technical features ensure that your Steel-Line garage door will operate efficiently for years to come.

Australian Made Steel.

Steel-Line roller doors are made from genuine BlueScope Colorbond® and Zinalume*; top quality steel that stands the test of time.

* BlueScope® Steel is our preferred supplier. However, we may use equivalent steel from an alternative supplier.

Steel-Line's CLEAN-LINE ROLLER DOOR

Our Clean-Line roller doors combine a unique profile with first class materials making them some of the **strongest, quietest and most reliable** doors available.

Easy to use and long lasting, Steel-Line's Clean-Line roller doors can be made to suit almost any size garage opening. Combine this with a range of Colorbond® colours and smooth operation, Steel-Line Clean-Line roller doors become true design features of your home.

Manufactured with heavy duty bottom rails containing durable PVC weather seals, Steel-Line's Clean-Line roller doors provide your precious garage contents with excellent protection from the harsh elements including wind, rain and dust.

All Steel-Line Clean-Line roller doors can be automated with a genuine Boss automatic operator. As a market leader in safety and innovation, all Boss operators include a range of convenience and safety features. The standard 'Auto Reverse System' causes the garage door to immediately stop and reverse when it comes into contact with an object, while the optional 'Photo Eye' feature automatically reverses the closing door if its electronic beam senses an obstruction.

Superior, Unique Profile

The exclusive Steel-Line door curtain has a unique roll formed profile that is engineer-designed for superior strength, whilst maintaining a unique modern appearance sure to enhance the exterior of your home.

ROLL FORMED PROFILE

Quality Drums and Springs

All Steel-Line doors revolve on precision-made nylon drum wheels; the latest in door technology. Doors are counter-balanced using helical springs to ensure perfect balance and operation. All our springs are heat treated and tempered to give years of trouble free operation.

CENTRE LOCK

Centre Lift Lock

All Steel-Line rolling doors have a factory fitted centre lift locks generally mounted waist high and operated by key externally. It also features an internal keyless manual override that offers security and a safe exit in an emergency.

Dual-Sided Nylon Webbing

We apply nylon-fibre webbing to both sides of the door curtain eliminating metal-on-metal contact resulting in an extremely quiet and smooth operating door for years to come.

DUAL-SIDED NYLON WEBBING

Aluminium Bottom Rail

An engineer-designed, heavy-duty extruded aluminium bottom rail is used to strengthen the bottom panel of the door. The bottom rail also incorporates a specially designed weather seal, extruded from tough and durable PVC to protect your garage from the harsh elements.

ALUMINIUM BOTTOM RAIL (WEATHER SEAL)

ROLLER DOOR OPERATORS

Fit your Steel-Line roller door with a genuine automatic operator from Boss for hassle free entry to and exit from your garage or shed.

All Boss operators are engineered to the highest standards ensuring easy operation, optimum performance, long life and peace of mind.

B/RD9 FEATURES

- Soft start & stop
- Door stop programming
- Auto reverse
- Courtesy Light
- In-built safety timer
- Remotes and wireless wall button
- 5 year motor warranty, 1 year electronics warranty
- Easy Installation

Soft Start and Stop Function

This feature is designed to allow for a quiet and smooth door operation, which is important when the garage is located close to bedrooms or living areas.

Door Stop Programming

This convenient feature allows for the door to be stopped at any height for the purpose of ventilation or pet access.

Auto Reverse System

For added safety, each installation comes with this automated feature that causes the garage door to immediately stop and reverse when it comes into contact with an object.

Courtesy Light

This courtesy light is the most convenient way to navigate through your garage and to get in and out of your car. The light automatically switches on and off as you open and close your door.

In-built Safety Timer

This automatic close timer will ensure that your door will close automatically (with optional photo eye beams installed) if you forget to close it yourself. This is a fantastic security feature that will ensure that you have peace of mind.

Remote Handset

These remotes are the most effective way to open and close your garage door. They are lightweight and can be programmed with up to 1.2 million transmitter code combinations.

Quality and Adaptability

Boss garage door operators are manufactured from quality composite materials, and are approved to the latest world-wide standards. They can also be fitted to most popular brands of roller doors with accessories to suit your requirements.

Warranty and Service

Approved to world-wide standards and covered by a 5 year motor warranty.* Experienced service technicians provide repairs and replacement parts for your new or existing garage door, motor or remote.

* Please see Steel-Line's standard warranty conditions in relation to automatic operators. 1 year on electronics. Door must be serviced annually or warranty will be void.

AUTOMATIC OPERATOR ACCESSORIES

Emergency Key Release

Used in case of malfunction or power failure, especially useful if there is no other access to the garage. * This product not compatible with RD9.

Electronic Key Switch

Allows entry into your garage from outside, via a key lock. Useful when remote handset is not available.

'Photo Eye' Technology

For added safety, this allows the garage door to automatically reverse when its sensor light beam is broken by an obstruction, helping to protect your family from injury and your car from the damage caused by contact.

Wireless Keypad

Weather resistant digital keypad with cover which can be programmed with codes from 1 to 6 digits, for maximum security. Includes back-light for your convenience when used in poor lighting situations.

Remote Handset

Comes with two or three buttons which act as multi-functional hand transmitters. It can also be programmed to open different doors or gates on the one handset.

Wireless Wall Mounted Remote

Can be installed near an internal access door to your garage giving you greater convenience to open and close your garage door.
